this book asks what are the implications of blurring genres for the discipline of political science and for area studies it argues novelists and playwrights provide a better guide for political scientists than the work of physicists it restates the intrinsic value of

the humanities and social sciences and builds bridges between the two territories the phrase blurring genres covers both genres of thought and of presentation genres of thought refers to such theoretical approaches as post structuralism cultural studies and especially interpretive thought part 1 explores genres of thought focusing on the use of narratives specific examples include the narratives of post truth political cultures narratives in canadian general elections autoethnography as a new research tool and novels as a way of understanding economic development part 2 emphasises genres of presentation and focuses on the visual arts the chapters cover photography in british political history the architecture of american statehouses and city halls design comics and using the creative arts to improve policy practice this book is interdisciplinary and should have an appeal beyond political science to area studies specialists and others in the humanities it is an advanced text so it is aimed primarily at academics and postgraduates
